

EFFECTIVE LIGATION IN-SIGHT™ BANDER

Hemorrhoid banding has been demonstrated as an effective and simple treatment for internal hemorrhoids, and can be readily performed in an office or ambulatory setting. Banding can also result in less pain with a shorter recovery period than a surgical hemorrhoidectomy.

The In-Sight Multi-Band Ligator is the only hand-held ligation device with its own light source – providing illumination, suction, direct visualization and ligation capabilities in a single-use device.

- Pre-loaded with 4 ligator bands
- Comfortable and ergonomic design for easy ligation and patient comfort
- Unique LED system maximizes visualization safely and efficiently
