

## SHARP INNOVATION INJECTION NEEDLE

A simple, elegant solution, the 5 mm and 3mm long lancet Injection Needles are offered in 22 and 25 gauge. Designed for single-handed operation, the innovative design limits accidental needle deployment during insertion and removal. The patented ratchet mechanism provides audible confirmation of deployment and minimizes needle bounce. A quick release button returns the needle fully into the sheath. The recessed metal end cap and firm catheter aid insertion ensures needle performance through various scope positions.

## KEY BENEFITS

### ONE-HANDED OPERATION

Ergonomically designed one-handed operation enables confident needle deployment that enables rapid needle retraction.

### PATENTED RATCHET DESIGN

Provides audible confirmation and secure locking of the deployed needle during use. As the needle is advanced, the ratchet gives tactile feedback and helps to reduce needle bounce.

### SHORT BEVEL TIP

Both the 5mm and 3mm needles feature a shorter 3-bevel tip, designed to improve the accuracy. The 3mm needle was designed to help target the ideal tissue depth for submucosal injection while the 5mm allows for greater flexibility in therapeutic use.

## SPECIFICATIONS

### INJECTION NEEDLES

Order Number	Henry Schein Item Number	Description	Needles Gauge/Length (mm)	Sheath Diameter (mm)	Working Length (cm)	Minimum Channel Size (mm)	Package Units
IN33131	129-0169	Injection Needle Upper	22/5	2.3	180	2.8	10/box
IN33221	129-0171	Injection Needle Upper	25/5	2.3	180	2.8	10/box
IN33151	129-0170	Injection Needle Lower	22/5	2.3	230	2.8	10/box
IN33241	129-0172	Injection Needle Lower	25/5	2.3	230	2.8	10/box
IN33301	TBD	PinPoint Injection Needle Lower	22/3	2.3	230	2.8	10/box
IN33331	TBD	PinPoint Injection Needle Lower	25/3	2.3	230	2.8	10/box
