

PERFORMANCE AND COMPLIANCE

JACKET DISPOSABLE BIOPSY VALVE

The Jacket™ Disposable Biopsy Valve is used to cover the opening to the biopsy/suction channel of gastrointestinal endoscopes.

Its unique design offers improved valve performance by minimizing leakage and helping to preserve insufflation to maintain adequate visualization.

- Double valve system to minimize leakage and prevent spraying
- Improved seal with three points of contact
- Internal funnel seal hugs and flexes with inserted accessories without gaping
- Compatible with Olympus, Pentax and Fuji GI endoscopes
