

GAUGING ACCURACY NAPOLEON ENDOSCOPIC MEASURING DEVICE

Estimating the size of a lesion in the GI tract can have significant impact on treatment decisions. Imagine being able to verify the size of a defect down to a millimeter.

The Napoleon™ Endoscopic Measuring Device is a tiny ruler designed to sit next to a lesion in endoscopic view so you can accurately gauge its size. The device lays perpendicular to the delivery catheter for easy visualization.

SPECIFICATIONS

NAPOLEON ENDOSCOPIC MEASURING DEVICE STERILE

| Order Number | Length of Ruler (mm) | Sheath Diameter (mm) | Working Length (cm) | Minimum Channel Size (mm) | Package Units |
