

PROTECT, COLLECT, CLEAN GI ACCESSORY KITS

Procedure kits provide the essential supplies needed for most cases in one convenient package. Using preconfigured accessory kits helps to standardize processes, reduce product handling, and simplify supply ordering.

Choose from five different kits that provide the items required for nearly every endoscopic procedure. By bundling routine items into standardized kits, the number of touchpoints, and the potential for cross-contamination may be reduced.

- Basic Kit
- Basic + Kit
- Upper Kit
- Set-Up Kit
- Compliance Kit
