

DISSECT, RESECT AND COLLECT ENDOROTOR ENDOSCOPIC POWERED RESECTION

EndoRotor[®] was designed to address challenges of incomplete resection and scarred lesions.

Endoluminal preservation - EndoRotor enables resection of scarred lesions without removing muscle and maintaining lumen patency.

Non-thermal mechanical resection of persistent adenoma.

Used clinically to facilitate removal of lateral margins and tissue bridges post-EMR.

ENDOSCOPIC POWERED
RESECTION CATHETER

ENDOROTOR[®] SPECIMEN TRAP

CONTROL KNOB FOR
1:1 ROTATION

SPECIFICATIONS

ENDOROTOR ENDOSCOPIC POWERED RESECTION (EPR)

Order Number	Description	Package Units
ESS-SYS-KIT	EndoRotor [®] EndoSurgery System Kit	1/Box
3.2-EPR-EGD-OP	Endoscopic Powered Resection Cath, Gastroscope, 3.2 mm (Olympus/Pen)	1/Box
3.2-EPR-COLOP	Endoscopic Powered Resection Cath, Colonoscope, 3.2 mm (Olympus/Pen)	1/Box
3.2-EPR-EGD-F	Endoscopic Powered Resection Cath, Gastroscope, 3.2 mm (Fuji)	1/Box
EPR-TRAP	EndoRotor Specimen Trap	10/Box
ESS-VAC-BAG	Suction Bag 1.5 l	40/Box
